

C2C004 : Captain Stark "Crust Path"

Captain Stark started as a trio back in 2006. During the years and the shows, the sound became harsher and harsher. With punk hardcore basis, the musical influences of the three members mixed in the songs many styles like metal, crust, noise and garage rock.

2010 was the year of the first (and only one) album. *Anticrust Superstark* gathers 12 bitter tracks with a Z-Movie scenario (also a big influence for the band).

While touring, the three members decided to recruit a singer for more violence in their music. In 2012, 6 songs were composed.

In 2014, after some several line-up changes, the band decided to be on hiatus.

In 2018, between childrens, family life and work, the four original members wanted to end permanently Captain Stark and to do so, they recorded the last 6 songs and played them during a final gig.

Coups de Couteau wanted to be a part of this project and has released this EP on CDr in a hand numbered silkscreened arigato pak.
