## six stab wounds

Coups de Couteau records third release : *Six Stab Wounds*.

Six french finest bands, one love : Grindcore.

**Yattai** : since 2004, the band from Angoulême has always some tracks to give for a split album or a compilation. Here we go again with 6 songs as powerful as an scandinavian puma and as heavy as an albinos buffalo.

**Boris Viande** : after the politacaly acclaimed *Mange Tes Couilles (Eat Your Balls)*, the guys from Orléans wanted to do something with their lives and make some money by managing some big food stores. Luckily for us, they give us some discount codes and also 6 blasting songs.

**Vengeance** : before quitting, this band from Angoulême agreed to put in SSW all of their 2k16 songs. Powerviolence as fuck ! They will be missed...

**Tina Turneur Fraiseur** : Nantes Holy Grinders wanted to show what real faith is by doing some music about the seven capital sins (+ one more track as a gift) ! Hail to the Blast !

**Nolentia** : because of their laziness, the three guys from Toulouse let this 5 songs slept in a harddrive for too long. But it didn't take so much time to dig them out and put this grind 'n roll beauties on SSW !

**Grünt Grünt** : the Angoulême's trio is back since their 2015 split album with [P.U.T] and he is angry ! Blasts, screams, intensity, name it. Last but not least, the eight tracks end SSW so well that it is the proof that all this violence is actually pure love.
